DR. MORSE'S INDIAN ROOT PILLS.

- MORSE'S INDIAN ROOT PILLS. -

Merchants and traders will be on their guard and not be imposed upon by a Counterfeit of Morse's Indian Root Pills, signed A. B. Moore. All genusine Indian Root Pills have the name and signature of A. J. White & Co. on each hox.

DR. MORSE, the inventor of Morse's Indian Root Pills, has spent the greater part of his life in tradition having visited Europa. in traveling, having visited Europe, Asia and Africa as well as North America—has spent three years among the Indians of our Western country—it was this way that the In lan Root Pills were first d

wend. Dr. Moore was the first man to establihe fact that all diseases arise from largerity or or encore-that our strength, health and life de pended upon this vital fluid. A. J. WHITE& CO.

DR. MORSE, the inventor of MORSE'S INDIAN ROOT PH.LS, has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa as well as North America—has spent three years among the Indians of our Western country—it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD-that our strength, health and life depended

upon this vital fluid. When the various passages become elogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick. corrupted and diseased; thus causing all palus, sickness tant then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a measurement to us that we have it in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sudorine, which opens the pores of the skin, and assists Nature in throwing out the finer the skin, and assists Nature in throwing out the liner parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclogs the passage of the lungs, and thus, in a soothing manner, performs its duty by throwing off phlegm, and other humor-from the lungs by copious spitting. The third is a Diarctic, which gives case and double strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out bountifully by the urinary or water passage, and which could not have been discharged in any other way.— The fourth is a Cathartic, and accompanies the othe properties of the Pills while engaged in purifying th blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and coneved off in great quantities by the bowels. From the above, it is shown that Dr. Morse's Indian

Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely rout out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for they annot remain when the body becomes so pure and

The reason why people are so distressed when sick and why so many die, is because they do not get a medicine which will pass to the afflicted parts, and which will open the natural passages for the disease to be cast out; hence, a large quantity of food and other matter is lodged, and the stomach and intestines are litterally overflowing with the corrupted mass thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws the corrupte A Card from Dr. James M. SINGER'S SEWING MACHINES. N all the leading branches of manufacturing iodu try the great practical superiority of Singer's sewing Machines is a fact established beyond dispute. No tailor, shoe manufacturer, clothin, seamstress, dress maker, saddler, carriage trimmer, hat manufac-

turer, &c., &c., can afford to do without them. One Thousand Dollars a Year Is only a fair average of the actual profit from the use of each one of these Machines, and, for confirmation of this truth, we refer to any one of the thousands of persons who use them. They are adapted to every sort

of work, fine or coarse, npon silk, cotton, linen and woolen fabries, also light and heavy leather. They never fail to give entire satisfaction.

To meet the growing demand for a smaller and more elegant machine for private household purposes, we have just produced, and are ready to receive orders for Singer's New Family Sewing Machine.

Which is the most compact and beautiful Sewing chine ever constructed.
